

Construction Update

Week of | 4/18/2016

Site Activity | Utility Work, Landscape & Retaining Wall Progress

In our continued effort to keep you informed about the progress at Skyland Town Center, please note the following construction update.

As you have noticed, utility work in the public space continues and is on schedule.

Within the site, you will see trucks watering the recently seeded landscape. Additionally, there will be work securing the perimeter fencing and continued work on the retaining walls.

Please let me know if you have any questions or concerns. Thank you for your patience as we work to develop Skyland Town Center.
